May 24 96

S. Pender
& N

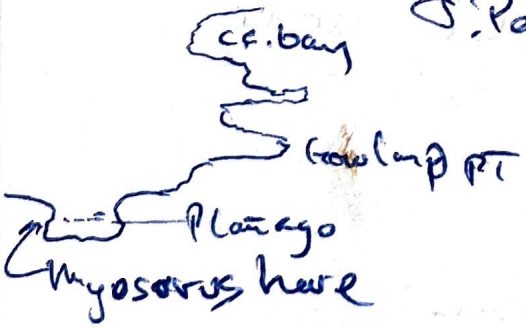
to Bald cone
search for Allium cremulatum
none found

Sandspit lots of Triglochin concinna

Mr Norman coll one grass festuca oct?

Jennans fields to old loc of Marah
oregana in upper fields - present
owners report plant present when
bought but since died. no trace
to pond - no Callitriche acuteps
coll Carex.

Gowland pt & pt to SW where
found very large pop of Plantago elongata
& several patches of Myosurus minimus
S. Parry coll



also Spergularia sp
& Sagina decumbens.

coll but not kept
Lepidium virginicum, Alopecurus geniculatus
Festuca bromoides

Carex sp. 2456
prob pachystachya

May 25/98 Transmitter to Macnelba site - none found
Savona
to crocidium hill on W relocated
Cancalis - further to Ophioglossum
& Sanicula bipinnatifida on ridge
- to Lydell Cr Jamesa - now on
up stream side of sand bar

May 26/98 Eastport Myosurus
relocat Tillaea e. in front of Kings
Sanicula bipinnatifi not
relocated, in front of Bolsons ?
Ranunculus californicus relocated
pop. of ~50 plants on lot 20
To Microseris lindyi - none
found in area.

May 30/98 to Ganges harbour
Saltspring I Chain islets
Allium geyeri on Deadman I &
rocks of E & W ends.
also all Geranium & Polygonum sterile.
Zygurgulariae forma

Allium geyeri var. tenerum 2457

Geranium carolinianum 2458

May 31/96 Ganges harbour to
water Channel Islands – no calls
w/ A. Hawryzki no Allium.

To Isabella islets.

Allium amplectens on 2 larger islets

Allium geyeri on 2 smaller rocks w/ only Grindelia & bits of Spergularia sp.

To Oaks bluff locate A. a. above water 35-50' ~5-10k pop

To Samuel I w/ checks along way on N & SP shores. Samuel A. a. pop significantly increased to ~? 5000 since previous coll.
