Additional observations: Mr. Stille

single *Artemesia campestris*, single *Calandrinia**Poa (scabrella)*, abud. On barbed wire & *Orthocarpus**Populus tremuloides* grove along north road  
about below Quada Hill.*Maianthemum dilatatum* in bog drainage

Up middle (Hed?) hill above Navy channel

Pots checked but only *P. sandbergii* seen*Plagiobothrys tenellus* abundant & large  
just below Camas shelf. Took single  
specimen of not quite blooming plant.  
Leaves also - dark blue fls.*Festuca microstachys* abud. also*Phacelia* (?) just below camas shelf  
near stille coll of *Triodanis* below first small treeApril 22<sup>nd</sup>Mayne I
